.Centerfold feature: MINUTES OF GOLD ... "It's a heartbreaking subject, an emotional body-blow that (thank God) most moms never undergo: the birth of a stillborn infant. Whether fullterm or greatly premature,e, it is a devastating occurence, the gravity of which is ...

Online Edition: <http://lifeloom.com/jackalope.htm>

Remember Hitchcock's horrific Psycho? The frenzied slashing murder shower-scene, the victim's spattered blood contrasting with the stark white of the porcelain

tiles & drain as the scary music shrieks: a milestone in cinema history. Janet Leigh once said that, after making *Psycho*, she could never again take a shower.

Watching the last evil deeds of the Dem-controlled 111th Congress as, up to the 11th hour of their arrogant hegemony (control), the Socialists spasmoidally slashed away at the fabric of our Constitution & the will of the people, the Jackalope felt like they were acting out *Psycho on the Potomac*. Thru-out the reign of the evil 111th, Dem-Tyrants have mutilated US, our expressed wishes, our Constitution, & our God-given rights.

Obongo-care was passed against the will of 70% of US; it took two grossly illegal bribes, the Cornhusker Kickback (a pay-off to Sen. Ben Nelson, D-NE) & the Louisiana Purchase (a pay-off to Sen Mary Landrieu D-LA) to shove this hated legislation thru. Obongo's Teleprompter promised pro-life Dems that, if they would vote for this unread 2000+ page bill, he would proclaim a Presidential edict *forbidding abortions* under Obongo-care.

No one but a fool expected the America-hating fake president to really forbid abortions under Obongo-care ... & he didn't. But the lying Muslim gave cowardly Democrats the cover they thought they needed to fall-in with the Marxist party line.

Obongo-care, Sociopaths, & Your Future as a Gov't Slave

All thru his 2008 campaign, Obongo's Teleprompter sincerely swore that it would head the most "transparent" administration ever: all proposed legislation would be published on the internet for at least 5 days prior to Congressional voting.

One year later, Patriots watched as Congress passed a 2000+ page bill which no-one had read. "We'll have to pass it to see what's in it," chuckled Speaker Pelosi. Now we know of a few

Also, we now know that Obongo-care has made woodstoves illegal: woodstoves emit smoke & smoke causes not only lung cancer but also "global warming"

of Obongo-care atrocities... All businesses now must file 1099s every year with the IRS, detailing all transactions both goods & services which total more than \$600. That means if, during the course of 2011, you spend more

than \$50 a month at the corner gas station or pay more than \$600 per year for auto repair or phone service, you must 1099 these providers. This outrageous theft of your time is mandated by Dem-Tyrants who have never run a business. To make sure you comply, Obongo-care has added

11,000 IRS agents. **If you, like the Jackalope, are an outspoken critic of the Muslim usurper & his Teleprompter, you will be audited ... & the IRS will find something to nail you on.**

That is only scratching the surface of Obongo-care, the law which fines you \$2000 for not purchasing medical insurance but which provides coverage free-of-charge to Muslims & illegal aliens, the law which establishes death-panels charged with the task of *deciding who is worthy of a life-saving medical procedure*. **How would your**

friend the Jackalope fare before a death-panel? You see, part of the reason for the repressive laws enacted under Obongo-care is control.

The right to free speech & the right to a free press is attacked in a sneaky, roundabout way under Obongo-care, with IRS & the death-panels as enforcers. Most people, bless **page 12**

College-boy Obongo & his Pakistani roommate, 1985

Gas/electric fridges 1200, 1201, 1210, & 1211 serial # from 315525 to 13088811, (non-inclusive). Model & serial numbers are located inside the fresh food compartment. These fridges may have cooling units with a cooling unit serial number between 700000 to 13085759. For simplicity, hereafter I am going to refer to all 1200, 1201, 1210 and 1211 fridges as the "1200." The 4 "1200" models are Norcold's long-running 4-door behemoth line of LP & electric fridges. These top seller are the result of popular demand for bigger RV refrigerators in the early 1990s. With more storage than offered before, this fridge is found in many brands of RVs targeted at the fulltime and semi-fulltime RVer market. Over 15 years' worth of "1200" models being manufactured has resulted in over 2M [million] units being recalled. Many of them have been recalled more than once, & now, all of them at least once.

**A tip from the RV Doc
may save you
a trip to the RV Doc**

Nearly all "1200" models produced between 1997 & the present are included in the new recall. If you own a Norcold model "1200" it is best if you re-check your recall status by serial number and cooling unit number again. The new recall supersedes all previous recalls on this model: therefore, even if your "1200" fridge has had a previous recall performed, you need to have the new recall performed. Likewise, if you were previously told by Norcold that your "1200" fridge was not covered by previous recalls, check your numbers again. You can bet the (p13)

Hi Campers, I'm TonyRVdoc. My family has a long history of camping & RV'ing. In the 1950s, my Grandpa built a camper on an old car to travel with his five children &, of course, my grandma. My dad has told me that, back then, no one knew for sure what they were seeing: no one had heard of a motorhome. Grandpa's love for the outdoors was passed down to all five of his children, & their children, & so on. Therefore, we have been camping as a family in RV's, cabins, tents & you name it, our entire lives. Most of my childhood was spent in dad's auto body & then RV service & supply business. Then there was the time spent with Grandpa. He would take me on service calls, to customers of his LP gas delivery & service business. I learned about customer service, a hard work ethic, mechanical & electrical diagnosis & repair, almost by osmosis.

I am a technician, a businessman, & a fellow camper. If I don't have an answer for your question in memory or on record, I will get you an answer from the source, if at all possible. So, if you just need a little troubleshooting help or product info about anything RV, just ask: *I'd like to help you.* Email me at tonyrvdoc@alsrv.com.

Golf Tips courtesy of PGA Pro John Baas

We all find ourselves each year in the same position, promising

It's a New Year — Let's Get Started

to make the changes in our golf games that will lead to better scoring. Before we know it, April is here, the weather is warm, & our golf game is no better than last year.

During the past 3 months, you went to your local course with good intentions but came away empty-handed. The goals you created for yourself were not realistic, hence no improvement in your golf game. Let's map out a strategy that can guarantee your game in 2011 will be much better than 2010.

FIRST Without a body that can perform what the golf swing needs to do, it's an uphill battle every day.

The December 2006 issue of *Golf Today* had a great article by Dr. Smith on exercise drills to strengthen your golf muscles. If you don't happen to have that back issue handy, you'll find another good article online at

http://www.golftoday.co.uk/proshop/features/easy_golf_exercises.html. Work with these drills 4 days each week &, by April, you will notice a change in your golf body.

SECOND Go to your local PGA professional & purchase a training grip & put it on an old sandwedge. No way to improve without great hand placement on the grip. Start with 20 yard chips, allowing the clubface to square at impact.

THIRD Buy a small volleyball & inflate to half pressure so that it is easy to press in the cover with your forearms. Take your training grip sandwedge, place ball between forearms & chip around the practice green. You are now creating the width in your swing necessary to be successful. (continued next page)

EATING GOOD — EATING HEALTHY

Answering Service:
928-726-6381

WHAT IS CHELATION THERAPY?

Chelation is the process of removing harmful substances from the body by binding, or *chelating*, them with water-soluble compounds.

This simple process is amazingly effective at treating a wide range of chronic health conditions including:
Cerebral Degeneration;
Angina Pectoris; Tendonitis;
Lupis Erythematosus, Heavy
Metal Toxicity; Psoriasis;
Arthritis; Arteriosclerosis;
Scleroderma; Hypoglycemia,
Diabetic Gangrene; &
Thrombophlebitis

A PARTIAL LIST OF THE BENEFITS OF CHELATION THERAPY:
Improves Coronary Circulation, Reduces Leg Cramps, Reduces Blood Pressure, Lowers Blood Fats, Lowers Blood Cholesterol; Reduces Angina Pectoris, Heals Poor Circulation, Heals Ulcers, Reduces Heart Irritability, Removes Excessive Iron Deposits, Improves Varicose Veins, Improves Vision, Improves Liver Function, Reduces Leg Pigmentation, Removes Signs of Senility

AVAILABLE TREATMENTS INCLUDE THE FOLLOWING:

IV Glutathione Therapy	Hydrogen Peroxide Therapy	Free
IV Vitamin C Therapy	Plaquex Therapy	Taxi Service
IV DMSO Therapy	IV EDTA Therapy	To & From
		The Border
		for Patients

www.coylechelationclinic.com

Remember all great ball strikers start their swings with the arms & shoulders, not the hands. This drill allows the arms to control the movement of the club. This will be plenty of work over the next 3 months & you will be excited at the improvement in your golf game come April.

**KEEP IT IN THE SHORT GRASS &
BEST WISHES TO ALL OF

Tier-Drop RV Park

BP Agents in Nogales want the *truth* about Terry's murder *known*.

Off the record, they are talking about what *really* happened in Peck Canyon on 14 Dec, the night of the firefight between armed Mexican cartel members and the BORTAC team. Their bosses in Nogales, Tucson, & DC are very worried about the facts getting out

RIP Agent Brian Terry

to the public & have issued a gag order on all agents. Brass is threatening Agents that, if they are caught talking about the facts of Terry's murder, they will be fired.

The Jackalope can't relate details regarding the identity of the trusted senior source inside USBP who reports that, when Agent Terry and the illegal alien bandit were both wounded, the BORSTAR helo came down on the scene & "someone" opted to airlift the Mexican first to the hospital. The illegal alien who was wounded in the

foot was given first priority for med service: this twice-deported violent criminal is a confirmed drug cartel member who had been convicted of assaulting a Phoenix police officer several years ago. Seriously-injured Agent Terry was loaded onto a vehicle and driven out to where another helo was parked. The confidential BP source reports that it was half an hour before they could fly him out.

Agent Terry died of his injuries en route to the hospital. The Mexican is enjoying good health. The Jackalope is not alone in suspecting that Agent Terry would not have died of his injuries if he had been properly triaged & given immediate medical attention.

The Mexican criminal who was wounded in the foot was airlifted to a hospital ... while Agent Terry lay dying. The feds' policy holds that the *life* of an BP Agent is *less important* than the *comfort* of an illegal alien.

The slain Agent's family publicly confronted Janet Napolitano about this outrageous action based on politically-correct DHS/BP procedures, policies, & protocol, all designed to protect Mexican criminals inside America. Totalitariano's response: "Obongo has *done more for border security* than any other president."

While TSA creeps feel up your kids, telling them it's a "game," while TSA scanners irradiate hundreds of thousands of Americans with rays known to cause cancer, while nude scanned images are circulating cyber-space ... 84M [million] Mexicans may breeze right through the checkpoints.

No, these 84M Mexicans are not border-jumpers. Instead, they are

Honor system

privileged under Janet Totalitariano's new "trusted traveler" program. These 84M privileged Mexicans will flash their "trusted traveler cards" with fingerprints & other biometric data & then answer customs declarations questions on touch-screen kiosks before leaving airport inspection areas. Applying for "trusted traveler" status is easy.

Candidates fill out an online (p9)

Hall of Birds

Bird Notes by Jan Hall

Vermillion Flycatchers

If you are very lucky, you might see one of these classy little red and brown/black birds in the Wellton area. A good place to look for one is at the Butterfield Golf Course (sitting on the chain link fence) ... but don't count on actually spotting one as they are not abundant. The males are unmistakable but, as with many bird species, the females are drab & unremarkable. These friendly little birds are unusually approachable, & might even follow you as you walk along. They are not shy & will perch right out in plain site, making little short flights to nab an insect or fly.

December marked 2 spectacular celestial phenomena: the annual Geminid meteor showers mid-month and a rare lunar eclipse, the first total lunar eclipse to occur on the winter solstice since 1638. The Geminids, the swarm of shooting stars we enjoyed viewing in mid-December, streaming from the direction of the Gemini constellation, are thought to originate from a debris shed by an asteroid. Other meteor showers, the Perseids in August & the Leonids in November are born of comet dust, not asteroid debris. The Perseids & the Leonids have been known since antiquity; the Geminids were first noticed about 150 years ago.

This year, Earth enjoyed with two lunar eclipses (you might have noticed the partial lunar eclipse on 26 June) &, in 2011, we will be blessed with two total lunar eclipses, occurring on 15 June 15 & 10 December.

across from the school
on William Street

The "Just Say NO to Superfluous Adjectives" Fiction-Writing Group began meeting 1 Nov at Desert Dugs: many thanks to Doug & Caroline for so generously providing the meeting space. The group now meets Wednesdays, 2-3:30, at the Wellton Library. Members each write a short story every week. Interested in joining? Email the Jackalope to sign up.

The 18-year-old Muslim Indonesian, Gusti Ngurah Alit, didn't see a cow: he saw a beautiful young woman. So he did exactly what you would expect him to do under the circumstances: he dropped his drawers.

"She called my name & seduced me so I had sex with her," Alit told the local newspaper. This sort of seduction is not an uncommon occurrence in Alit's Muslim culture.

Alit underwent the

Obongo, in native garb, on his recent Indonesian vacation, strolling in his old Jakarta neighborhood

standard cleansing ritual; the village chief gave the owner of the cow the equivalent of \$562; & the seductive cow was — *reportedly* — drowned in the sea to rid the village of bad luck.

Seduction by mule happens all the time in the Muslim world

Barnyard critters seducing Muslim men is so common-place that Sharia law deals with it definitively: If a horse, mule, or donkey was sodomized while alive by a man, it is strictly forbidden to eat the meat within the city limits; the animal must be taken outside the city and sold. That way, people from another city get stuck with the meat of the seductive mule — or enjoy its tender embraces if the animal manages to escape slaughter.

If however, the seductive critter is a cow, a ewe, or a camel, the animal must then be killed and the price of it paid to its owner by him who sodomized it.

Sharia law specifies that a Muslim man who admits to being seduced by a barnyard critter

must go thru a *cleansing ceremony*. If, however, it's a woman who is *accused* of seducing a barnyard critter, she must be stripped naked & lashed 1,000 times in the presence of her sons (to increase her pain & suffering), then buried to the waist & stoned to death by men.

Sharia law is already being practiced in various states in America

Imam Obama's DOJ holds that it is *insensitive to the culture* of Muslim immigrants to expect them to follow the laws of the USA, as they feel more "comfortable" under Sharia law, the law of the land in backward pest-hole they come from. In November, 70% of the good citizens of OK enacted a law which forbade the use of Sharia in administration of justice. A Clinton-appointee judge struck down the new law, deeming it *racist* & unconstitutional. In TX, 200 American judges have been given special training in administering Sharia law. Look for Sharia at a courthouse near you soon.

(from p6) application, provide identification, & answer a few questions from a Customs and Border Protection officer. So, while you are being fondled & microwaved, 84M Mexicans can flash their "trusted traveler" card & breeze right thru, thanks to Janet Totalitariano.

Honor system

Violent drug cartels have taken over Mexico: 11,000 Mexicans were murdered by cartel operatives in 2010. Half of these murders occurred along the US border. A trusted source (who must remain nameless because of his law enforcement ties) recently provided to the Jackalope crime scene photos which are too grisly to publish: these photos show a pile of human heads which were literally

skinned (like you would peel a tangerine) alongside a pile of severed male genitalia: the work of Mexican drug cartels. It is recognized that terror orgs such as Hamas & Hezbollah are actively training Mexican cartel operatives, & it has just been reported that, last year, Mexican drug cartels deployed hundreds of IEDs (improvised explosive devises) such as are used by the Taliban in Afghanistan. Everyday, the cartels expand their criminal enterprises further north. The area around Laredo, TX is under cartel control, not that of American enforcement. Wide stretches of AZ parkland within one hour of Phoenix are off-limits to US because Mexican drug cartels control our sovereign territory.

According to the Constitution, the *main purpose* of the fed gov't is to protect US from foreign enemies. Criminals from a foreign country, Mexico, openly control public land within the USA ... & the usurper Obongo *smiles*. The usurper *smiles* because his plan is to *destroy* US ... & his plan is working. (p17)

In Switzerland, recently, a man was fined big bucks. His crime? Full of springtide happiness, while mowing his lawn, the Swiss man broke into a happy yodel. This offended some Muslims in the area who claimed that the yodeling made mock of the sheet-head call-to-prayers. And the cowardly Swiss judge, who does not have the spine of a nightcrawler, ruled in favor of the paranoid sheet-heads.

"I wasn't making fun of anyone," protested the Swiss yodeler. "I just felt good & broke into song. It was a nice day." It was ... until he got arrested.

How long until, some nice day, you break into a Gene Autry or Jimmie Rodgers cowboy song, & your happy yodeling gets you arrested because some swarthy *mule-hugging* Muslim, whose stated goal is to destroy US & our way of life, claims that you are mocking Islam? Yellow-bellied judges & pols who kowtow to Islam, that wanna-be religion from the Dark Ages, are renegades & traitors. Usurper Imam Obama, who calls the sheet-head call-to-prayers "the sweetest sound in the world" is a *mule-hugging* Muslim & an America-hating traitor.

It's a heartbreaking subject, an emotional body-blow that (thank God) most moms never undergo: the birth of a stillborn infant. Whether full term or greatly premature, it is a devastating occurrence, the gravity of which is often misunderstood by even those friends & family members closest to the bereaved. And then there are the mundane, associated problems: what to dress the stillborn infant in? Some of the babies are so tiny that they would fit in the palm of your hand, much too small for regular newborn gowns. Carole Slauch's tax exempt public charity, Minutes of Gold, is a non-profit org dedicated to providing stillborn infants with the one set of clothing which they will have on this earth.

A local chapter of Minutes of Gold functions at Wellton's Pioneer RV Park. Every Monday morning, up to 30 ladies (including winter visitors from Canada & many US states) meet to knit & crochet soft little blankets & make matching tiny roses, cut out & stitch little gowns & bonnets, & put together packages to deliver to 26 hospitals across America. Most of the packages of layettes are hand-delivered to participating

hospitals in members' hometowns. This is done to save shipping costs so that more money can be put toward purchasing supplies.

Sandy Sagert is the Minutes of Gold Yuma Area Coordinator. Sandy works closely with both Bev Sutherland & Carol Fiorino. Coincidentally, Sandy & Carol hail from neighboring towns in British Columbia. Together, since 2007, they have overseen the Pioneer Park chapter. Since 2007, Pioneer Park volunteers have provided almost 100 layettes to the Yuma Regional Medical Center alone. The ladies are no shirkers.

The Pioneer Park group's goal for this year is: 40 layettes (baby girl, baby boy, & unisex), each in S, M, & L, plus 80 Triple X layettes. That adds up to 440 layettes consisting of gown, hat, diaper, blanket, & matching crocheted roses. A card with this poem by Sonja Liles of Florence, OR, is included:

DESERT DUGS

Open 7 Days a Week 928-785-9877

Please accept this layette,
And know that we care
For into each stitch,
We've tucked in a prayer
That God will be with you,
For He sent us to you,
to dress His new angel
In something special and new ...

The Jackalope, that tough-hided old desert critter, wept at first sight of a tiny white gown. Sandy confided that just about everyone who sees a layette bursts into tears. "I should have warned you," she said.

"Why do you do it?" asked the Jackalope, looking around the rec hall at the volunteers busily working.

"Why? To give back.

"You're all unpaid volunteers," marvelled the Jackalope.

"Yes, all volunteers. We never ask for anything but we certainly take donations."

"Remember our first garage sale, in 2007?" said Carol.

"We brought in \$313 & 13 cents. And Sandy's a careful shopper."

Sandy nodded.

"Yes, every Black Friday, I'm in line at 5:30 in the morning at JoAnne's, to stock up on yarns."

"Why do you do this?" the Jackalope asked once more.

Sandy smiled gently. "To help. Just knowing that we have helped someone is all the thanks we need." The Jackalope says "thank you" to these good ladies, Canadian & American, of the Pioneer Park Minutes of Gold chapter.

from p2 their hearts, will not dare speak out against Obongo & Dem-Tyrants when they know that the penalty for standing up is big fines, prison, or a death-sentence.

Obongo-care = open season on brave Patriots.

More than 20 states have already enacted legislation quashing Obong-care for the simple reason that the bill which Dem-Tyrants rammed down our throats is outrageously illegal. It is a socialist power-grab, enacted to seize control of a vast portion of the American economy, not only the medical & insurance industries but also your most private household book-keeping, & your ability to speak out against the gov't.

It's exactly like Russia in the 1920s.

Back to *Psycho*. Hitchcock got the idea for this scary movie from the real-life story of a smiling psychopath whose hobby was slaughtering women. Psychopaths are the most visible of sociopaths & are, thank goodness, relatively rare.. *Sociopaths*, however, are much more common, a dime a dozen. At least 4% of the overall population is sociopathic; some populations have a much higher percentage. Prisons, for example: nearly all prison inmates are sociopathic. More intelligent sociopaths tend to enter professions such as law or politics, where they can tell lies for fun & profit, & more importantly, wield power.

Sociopaths lack something normal humans all have: a conscience, a heart.

Sociopaths are incapable of remorse, of ethics. Sociopaths believe that rules are for everyone else, not themselves. Sociopaths lie easily & convincingly. They delight in mind-games & in manipulating others to get whatever they want.

Sociopaths have hearts of ice & prize power above all else. Sociopaths glory in lording it over others: one set of rules for everyone else, but no rules at all for the sociopath.

The Jackalope is a mystery-writer; sociopaths are the mystery-writer's stock-in-trade. The Jackalope has been **p18**

(p3) farm that your "1200" is under this new recall.
RV Tech Topic: The new kit addresses the lack of a safety device needed to prevent the continued application of a heat source to a failed cooling unit.
Norcold Recall

Call Norcold Product Recalls @ 1 (800)767-9101 for details. Have the following information ready when you call. First, write down your fridge's model # and serial #, found inside your fridge on a data tag. Second, get the cooling unit #, found on back of fridge from outside with the outside access door off (the number starts with CU). Third, have your 17-digit VIN ready.

Once you have verified that your fridge is within the recall, it is recommended that you *turn off your fridge*. I know that being asked to turn off your fridge is a sore subject. However, as a technician and a camper, I just want you to be safe.

The old recall kit had a thermal cut-out that was not directly mounted to the tubing of the cooling unit. The new safety device is directly attached to the cooling unit tubing. I have seen in our dealership a "1200" that had a failed cooling unit. The fridge was still trying to cool; therefore, heat was being continually applied to the boiler. The metal tubing around the boiler was red molten hot. With no safety device attached, the fridge was still attempting to cool and was very close to catching fire!

With the new kit, any temperature above normal operating range causes the power to be interrupted to the main control board. The power interruption results in a complete refrigerator shut down. It does appear that if the fridge in our dealership had the new kit installed, the power would have been cut & the heat source would have been turned off which would have allowed the boiler to cool down to a safe temperature until the fridge could be serviced by a technician.

The safest thing to do is turn off the fridge. (p15)

editor.of.the.jackalope@gmail.com

Author Rosalie Stafford (MA English & Folklore) taught writing & architectural history at private & community colleges in San Diego for 25 years before returning to the beautiful Mohawk Valley. Always a risk-taker, she's gone around the world as a USNavy civilian shipboard college instructor; has sold cars & wigs & funeral plans; has worked in law offices & crisis-lines: all of which provide "raw material" on eccentric fictional characters (call-girls, car-thieves, con-men, lawyers & other crooks), & out-of-the-ordinary fictional settings (haunted historic homes, psychic hotlinens, chop-shops, etc). Her tricky, cleverly-plotted books hilariously reflect the reality & folklore of the underground San Diego.

(from p14) Sorry for that bit of bad news. Oh
RV Tech Topic: yeah, remember not
Norcold Recall to kill the messenger.
Your service agency, like you, is at the mercy of Norcold.

Recall kits are being ordered and installed, at no charge, on a first-come, first-served basis by your authorized Norcold service center. If you would like a copy of Norcold's official recall list, email me.

In conclusion, my best advice is to keep your RV current with all factory recalls. Also, be sure to keep your contact info current at Norcold.

So happy trails to you ... & happy camping, too! tonyrvdoc@alsrv.com

The time is now near at hand which must probably determine whether Americans are to be Freemen or Slaves, whether they are to have any property they can call their own, whether their houses & farms are to be pillaged & destroyed & they consigned to a state of wretchedness from which no human efforts will probably deliver them.... George. Washington

"The propitious smile of Heaven can never be expected on a nation that disregards the eternal rules of order & right which Heaven itself has ordained." George Washington

Mystery photo from the Jackalope's files. Can you identify these hunters? Also, can you ID the large mammal?

Would you miss hearing "Press 1 for English"?

Last month, the Dept of Homeland Security stated: "Our conservative estimate suggests that ICE would require a budget of more than \$135B to apprehend, detain, & remove the nation's entire illegal immigrant population."

1 of every 6 babies born in the USA is an anchor baby: these illegal offspring use a grossly disproportionate amount of social services. In CA, Mexican women who give birth to anchor babies are guaranteed a full 18 years of welfare payments for each anchor baby.

Every year, the feds spend upwards of \$30B on illegal aliens. State and local governments spend about \$85B annually in various services (law enforcement, schools, social services, etc.), with CA taxpayers alone spending \$21 billion on illegals every year. Compare the \$115B per year, year after year, that those illegal aliens cost US with the one-time fee of \$135B that it would cost US to deport every single illegal alien here.

The Jackalope can spot a bargain! The mass deportation would pay for itself in a little over a year ... & think of the quality-of-life benefits: would you really miss the over-crowded emergency rooms & broke schools; the prisons so over-booked that criminals are released for lack of beds; the bankrupt hospitals; the gang graffitti; & the cars with their doors open, pumping out the boom-boom-boom racket that you can hear for half a mile?

Would you miss having to go searching for an English-speaking clerk in Wal-Mart

before you can ask an illegal-alien clerk a simple question? In 1954, Pres. Ike deported millions of Mexicans because of the criminal culture they had imported. Thanks to sleazy criminal corruptocrats LBJ & Ted Kennedy, Ike's courageous policy was junked. Our America is being invaded by 1,000 illegal Mexicans every day of the year: 1 out of every 6 babies born here is born to an illegal alien. In 2007, the DHS estimated the cost of deporting all illegals to be approx. \$95B. The projected cost increased by a whopping 50% in the 3 years between 2007 & 2010. Can we afford this "cheap workforce"? Ninety percent of illegal aliens from Mexico do not have a high school education — gov't stats show that illegal aliens actually gobble

1 out of 3 inmates incarcerated in US federal prisons is a Mexican illegal alien serving time for violent crimes

up tax money, while Americans groan under a crushing tax burden. One of every 3 inmates incarcerated in federal prisons is a Mexico citizen, serving time for violent crimes such as murder, rape, incest, child-abuse, kidnapping, car-jacking, home-invasion, drug-smuggling, weapons-smuggling, etc., & America-hating open-borders activist judges such as Somerton's notorious Jorge Lozano use judicial privilege to defend & promote lawlessness by illegal aliens, as the Jackalope recently witnessed in our Wellton Court.

Dem-Tyrants love illegal aliens because functionally illiterate illegal aliens are natural marxist voters.

Racist Jorge Lozano exemplifies the rot which infests the judiciary, which has been seized by lawless sociopaths, intent on advancing a destructive anti-America marxist agenda.

(from p9) Open-Borders Obongo & his One-World-Gov't henchmen sue AZ because we, the good people of AZ, seeking to control crime at the border & the invasion of a thousand illegal aliens every day, passed SB 1070. Meanwhile,

Honor system

Drug cartels or terror orgs will bribe or coerce "trusted travelers" to bring in drugs, explosives, or bio-warfare weapons

Janet Totalitariano offers 84M Mexicans a free pass into America via air travel —

& she has assured the gov't of Mexico that she will do *everything* she can to "reduce the risk to life & security of migrants."

Totalitariano's policies directly caused the death of BP Agent Brian Terry, on 14 Dec, in Peck Canyon near Nogales, AZ.

The gov't we are paying for could not care less about US ... but the *life, the security, even the convenience* of illegal aliens matters a lot to Janet Totalitariano & her boss, America's traitorous illegitimate president.

The Jackalope invites **open-borders activist judge Jorge Losano**, who got his 3rd-rate affirmative-action sociology & law degrees out of a bag of crunchy chicharrones & who shamelessly **ignores Constitutional & case law** in order to pronounce **judgements favoring illegal aliens**, to respond in writing (in English), *explaining why he supports Reconquista, the perverted & racist theory that America belongs to Mexico.*

Progressives' Guide to Religion & Faith
First, there was nothing. Then nothing happened to nothing. Then something happened to everything. Then everything replicated itself into more everything. Then small, self-replicating bits of everything became dinosaurs. Then big dinosaurs became little chickens. Then humans became the smartest creatures in our galaxy. Then humans unwittingly destroyed the planet & the universe. Any questions? (If yes, you're a racist.)

Magical Moon

1504. Columbus was on his 4th voyage to the New World. Docked at the place now called St. Anne's Bay, Jamaica, Columbus was having bad luck: his ship needed extensive repairs & the natives were getting restless. Moreover, the Spanish explorers were running out of food &, because the natives felt that the strangers had worn out their welcome, no more food was forthcoming.

Columbus' crew was all for simply exterminating the recalcitrant natives but El Capitan had a better idea: he knew from his almanac that the next day, 29 Feb, would bring a lunar eclipse & he knew that the natives *did not* know it. Columbus told the chief of the islanders that, if food were not forthcoming, he would use his magical powers to remove the moon from the sky. The chief laughed at the ridiculous threat & refused to give the hungry Spaniards what they wanted. The next night, however, the islanders were not laughing as the full moon rose orange & round & immediately began vanishing before their terrified gaze. Over the next couple of hours, the blood-red moon completely disappeared & only a lurid ghostly disk hung in the sky: strong magic!

Columbus got what he wanted ... and graciously restored the moon to the island sky.

from p12 studying sociopathy for years, identifying garden-variety neighborhood sociopaths & gleefully using them as characters in books. Sociopaths are interesting: natural villains, they can be very amusing when they are safely caught between the covers of a comic mystery novel.

But sociopaths in charge of the gov't are not amusing. Imam Obama, Pelosi, Reid, Rangel, Barney Frank, Feinstein, Rahm Emmanuel, Eric Holder, Jesse Jackson, Raul Grijalva, activist judges such as Somerton's Jorge Lozano or Obongo's Kagan & Sotomayor, the Clintons & their hero Sol Alinski: all sociopaths ...

Like all sociopaths, these unindicted felons believe that the rules do not apply to them. Sociopaths will do whatever it takes to get what they want: they will not hesitate to lie, cheat, pervert justice, or kill, as seen in Sol Alinski's satanic book, *Rules for Radicals*, Hillary Clinton's Bible.

Being sociopaths, these cheaters lack the ability to love. Oh sure, they will say they are "full of love." Hillary "loves" Bill; Jesse Jackson "loves" black folk; Grijalva "loves" illegal aliens & all undocumented Democrats - but these sociopaths "love" humans *exactly* the way you "love" your new car. It's all about pride of ownership, admiration of qualities of usefulness, not about what a *normal person with a conscience*

calls "love." That is precisely why Dem-Tyrants are so dangerous. Anytime there are two groups of people, and one side (Constitutional Conservatives) plays by the rules while the other side (Dem-Tyrants acting as judges & law-makers) tramples the rules -- *who* is going to prevail? What will a person who has no conscience *not* do?

Pray for America. Pray for our country, our Constitution, our inalienable rights given to US by God.

The psychos, the sociopathic open-borders activist judges such as Jorge Losano, the America-hating marxists such as Raul Grijalva, are *slashing US, trashing our Constitution*, doing whatever under-handed criminal act they can conjure up to achieve their progressive/socialist goal: *their admitted goal is to destroy US.*

Only by God's grace can America survive these attacks. Know that, along with God's blessings, come grave responsibilities. Stand up, be brave, speak out - not to do so is to participate in Dem-Tyrants' destruction of God's greatest gift to US, our America.

**No rules!
Anything goes!
Winning is everything!**

Correction Nov. Jackalope (p6) editorial re the existential danger the usurper has put US in reads: "No wonder Obongo chain-smokes & spends all his time watching ESPN: nothing in his vacuous resume has prepared him for dealing with the big boys." **It should read: "No wonder Obongo chain-smokes Kools & spends ..."** The Jackalope apologizes for the omission.

When injustice becomes law, resistance becomes duty.

Thomas Jefferson

RS: I'm surprised hear you using the politically-correct expression "Happy Holidays."

Jackalope: How can it be politically-

correct? I've been saying it for almost 45 years. The very first time I heard that expression, in 1963, I was in 4th grade at Mohawk. I remember exactly where I was, sitting in Miz Liebe's classroom, in the south wing of the annex by the cafeteria. I remember the wall of windows on the north side of the classroom & the orange tree outside & Miz Liebe taking us thru our *Weekly Reader*. It was in the *Weekly Reader* that I first learned that some people wash their cars—what an outlandish concept! At first I didn't believe it.

RS: You're joking, Jackalope—you weren't really that ignorant?

Jackalope: Well, yes, as a matter of fact, I was dumber'n a pumpkin: Mohawk Valley was hardly a glittering metropolis back in the 50s & 60s. The *Weekly Reader* was a wonderful publication; it really expanded our knowledge of the larger world, beyond the Mohawk Valley, even beyond Yuma. Anyway, this particular fall day, I encountered the phrase "Happy Holidays" & was immediately enchanted. So *poetic*—I loved the alliteration of the repeated "h"—& so efficient! It covered the entire season from Thanksgiving to New Year's. My delight with the expression grew when, years later, I heard about the Jewish mid-December holiday, Hanukkah; around the same time I heard about Kwanzaa, the end-of-year phony ritual invented in 1966 by a Black Power radical. "Happy Holidays" is appropriate to all these times & probably lots more. People tend to hold ritual celebrations around the low-point of the year, the winter solstice. For instance, the ancient Romans held their

feast of Saturnalia, mid-December, when slaves & masters switched places, the low made high & the high brought low, referring to the turn-over of the seasons

RS: Sounds like you are implying that Christmas is a pagan holiday.

Jackalope: [firmly] Not at all. Christmas celebrates the birth of the Christ. When I was a little critter, back at Mohawk, the old-time teachers—Miz Jennings, Miz Pratt, Miz Coyer—all used to wear beautiful Christmas jewelry. Mostly little enamel Christmas trees, set with sparkly glass gems, & candy canes & snowmen & wreaths.

RS: Those broaches are now very expensive collectibles, worth hundreds of dollars each.

Jackalope: When I taught, I always wore sparkly jewelry, especially sparkly rhinestone bracelets, so that students would pay attention when I wrote on the board... I learned that from my Mohawk teachers. Miz Coyer loved jewelry. She always wore strings of big beads & sparkly ear-buttons. She had rich red hair piled up on her head & wore dresses which were cut low in the front. I think she had been with Mohawk since the beginning; I think she had been my father's teacher ... & Daddy started first grade in 1930, the day Mohawk first opened.

RS: Lots of people hereabouts must remember Miz Coyer, who taught so many years.

Jackalope: Miz Coyer taught for decades. She was very old by the time I got to Mohawk. She seemed to get distracted during spelling tests; her attention would wander. My sister, who is 2 years younger than me, told me that Miz Coyer would put her head down on her desk during spelling tests & fall right to asleep. I guess 40 years of teaching little rascals how to spell "friend" & "neighbor" could catch up with you. Pearl Liebe, now, she was an artist. We did wonderful art projects in Miz Liebe's class, like painting birds on glass. I still have an oil painting she gave me, "Oasis at Sundown," dated 5/12/64 ... that was a long time ago ... the Jackalope is wishing a Very Happy & Creative New Year to all the teachers of our beautiful desert area, including the area's many dedicated home-schooling teachers.
